Foreword

Tēnā koutou,

Rotorua's people are what make this place truly special and our unique natural environment is like nowhere else in Aotearoa. Our deep connection to the land shapes who we are - welcoming, innovative and always looking ahead. Together, we create opportunities to build a strong, resilient future for our community.

Rotorua is entering a period where economic growth cannot be taken for granted. Competition for investment, talent, visitors and business activity is increasing, while financial constraints across local government require greater focus and discipline.

RotoruaNZ's role is to unlock the economic potential of Rotorua by strengthening our economic foundations, attracting investment and talent, growing a resilient visitor economy, and improving the competitiveness of our destination.

Over the next 12 months we will focus on three strategic priorities:

1. Reset Rotorua's Economic Development Priorities
2. Strengthen Brand Rotorua
3. Lift Commercial Performance and Financial Sustainability

Collaboration remains fundamental to our success. We will continue structured engagement with Rotorua Lakes Council's Destination Development team and work closely with Te Arawa, industry partners, central government agencies and the wider business community to ensure alignment, clarity of purpose and collective impact.

RotoruaNZ is committed to strengthening Rotorua's reputation as a world-class destination to visit, live, work, study and invest. Our work will balance economic growth with environmental stewardship, cultural integrity and community wellbeing.

Together with our partners, we will continue shaping Rotorua's future – creating the conditions for our district to thrive.

Andrew Wilson
Chief Executive

The Board acknowledges that as part of the Council resolution to establish the CCO, the entity has to be flexible around its service delivery using a combination of facilitation, coordination and working in partnership with other organisations or sector groups. In meeting this challenge, the CCO will adhere to the following guiding principles in fulfilling its role:

- Assisting with the reduction of regulatory barriers
- Identifying and validating potential areas of focus that will support private sector investment, ensuring that robust information is provided to assist decision-making
- Leading with business insights and intelligence
- Applying commercial disciplines
- Not duplicating or competing with the activities of the private sector
- Taking a customer-centric approach to seamless service delivery
- Contributing to the goals and objectives of the Te Arawa Partnership Agreement
- Create a high-performance culture within RotoruaNZ so that it fosters and attracts top talent.

Performance Update

7. Performance Update

The board takes a two-pronged approach to monitoring the performance of the CCO, designed to reflect Council expectations.

One is a set of organisation-wide performance measures and targets which are within the CCO's control and form the basis for accountability to delivering on the priority outcomes in the areas of Business Development, Investment Attraction and Tourism Growth.

Two is a set of key monitoring indicators that reflect outcomes at the regional level which are impacted by a range of factors outside of the CCO's direct control but which the CCO aims to influence at a local level, where possible, through their activity.

Progress against these performance measures and indicators will be monitored by the board on a regular basis and reported to council and stakeholders on a quarterly basis. The board proposes the following as the controllable organisation-wide performance measures to form the basis for accountability to the Shareholder.

7. Performance Update

7.2 Monitoring Indicators

In addition to our performance measures, RotoruaNZ has identified a further set of monitoring indicators. These indicators reflect outcomes at the regional level which are impacted by a range of factors outside of our direct control (e.g. exchange rates, natural disasters, government policy) but which we aim to influence through our activity. As the city's economic growth agency, we take a leadership role in monitoring, reporting and influencing these indicators as we can, however we do not measure the performance of our organisation against them. We have also developed a 6-monthly survey tool in partnership with the Rotorua Business Chamber to engage with the business community and glean insights that will help us understand their challenges and aspirations.

These indicators reflect outcomes at the regional level. As the district's economic growth agency, RotoruaNZ will monitor, report and where possible, influence these indicators at a local level, however they are not the measure of the organisation's performance.

Note: At each quarterly release, Infometrics revises historical values and therefore the values in the table below will change. This table will be updated again before it goes to final print. Data is released approx. 20-25th of Feb, May, Aug and Nov.

9. Governance

9.1 Responsibilities of Directors

The Council has established the CCO board and, consistent with best practice, Directors are appointed under the expectation that in undertaking their role, they will exhibit and ensure to:

- Act as a board of governance for the organisation responsible for the overall direction and control of the company's activities, to act in the best interests of the CCO, and not act as representatives of either their business or the sector they work in
- Assist the organisation to ensure the activities of the CCO deliver upon the SOI and funding agreements with Council which are driven by the strategies and expectations of Council
- The board will adopt governance practices and policies that are not inconsistent with those of Council and make the commitment to operate in a manner consistent with adherence to the Companies and Local Government Acts and the principles of the Institute of Directors of NZ and their four pillars of governance best practice for NZ directors
- Practice sound business in commercial undertakings, operating as an efficient and effective business
- Implement sustainable business practices
- Assist in the development of the Board Intern

Meeting legal requirements

The Board's first duty is to the legal entity. In meeting this duty the Board must ensure that all legal requirements under the relevant Acts are met and that the entity is protected from harmful situations and circumstances in the interests of current and future stakeholders. The Board also has a responsibility to its stakeholders to ensure that the available resources are used to deliver the right outcomes to the right people in the right way.

In particular, Directors have the following obligations:

- To act in good faith in the interests of all stakeholders of RotoruaNZ
- To exercise their powers for a proper purpose
- To avoid actual or perceived conflicts of interest
- To act honestly
- To act with reasonable care and diligence
- To not make improper use of their position or of information gained while in that role
- To ensure that RotoruaNZ does not trade while insolvent
- Board members, either individually or collectively, are potentially liable if they act illegally or negligently

Direction of executive performance

The Board will:

- Select, monitor and, if necessary, replace the Chief Executive
- Provide the Chief Executive clear expectations of his/her performance
- Provide regular, honest and rigorous performance feedback to the Chief Executive on the achievement of such expectations

Public statements

In all contact with the media the Chief Executive shall be the sole spokesperson on all operating matters relating to RotoruaNZ Ltd. The Chairperson shall represent RotoruaNZ Ltd on all governance matters. The Chairperson may delegate aspects of this responsibility.

Other

The Board will perform such other functions as are prescribed by law or assigned to the Board under RotoruaNZ Ltd governing documents as they relate to being a Council Controlled Organisation (CCO).

9. Governance

9.2 Expectations of Board members

To execute these governance responsibilities Directors must, as far as practicable, possess certain characteristics, abilities and understandings.

Fiduciary duty

Directors must act in RotoruaNZ's best interest at all times regardless of personal position, circumstances or affiliation. They should be familiar with the constitutional arrangements and fulfil the statutory and fiduciary responsibilities of a Director.

Strategic orientation

Directors should be future oriented, demonstrating vision and foresight. Their focus should be on strategic goals and policy implications rather than operational detail.

Integrity and accountability

Board members must demonstrate high ethical standards and integrity in their personal and professional dealings and be willing to act on all Board decisions and remain collectively accountable for them even if these are unpopular or if individual Directors disagree with them. Directors must be committed to speaking with one voice on all policy and directional matters.

Informed and independent judgement

Each Director must have the ability to provide wise, thoughtful counsel on a broad range of issues. He or she must have or develop a sufficient depth of knowledge about RotoruaNZ to understand and question the assumptions, underlying strategic and business plans and important proposals and be able to form an independent judgement on the probability that such plans can be achieved or proposals successfully implemented. Each Director must be willing to risk rapport with fellow Directors in taking a reasoned, independent position.

Financial literacy

Directors must be financially literate. They should be able to read financial statements and understand the use of financial ratios and other indices used for evaluating RotoruaNZ's performance.

Industry and sector knowledge

Each Director is expected to bring a level of industry and sector knowledge sufficient to contribute to the Board's deliberations and considerations on behalf of the organisation.

Participation

Each Director is expected to enhance the Board's deliberations by actively offering questions and comments that add value to the discussion. Each should participate in a constructive manner that acknowledges and respects the contribution of others at the table, including the executive team. All Directors must attend at least 80% of Board meetings each year.

9. Governance

9.3 Governance process policies

Policies are to be clear, unambiguous and provide continuity and a consistent point of accountability.

RotoruaNZ acknowledges Māori as tāngata whenua, accepts Te Tiriti/The Treaty as a founding document of the nation and acknowledges its responsibility to ensure Māori needs are met in culturally appropriate ways.

An essential element in the Board's leadership role is its responsibility to set the strategic direction for RotoruaNZ, identify organisation priorities and monitor progress against the strategic goals and objectives.

The Board has a core duty to ensure the financial integrity and viability of RotoruaNZ and to ensure the organisation's funds are used for the purposes for which they have allocated. This requires oversight of financial performance and annually approving the financial budget.

The Board will identify and evaluate the principal risks faced by RotoruaNZ and ensure that systems are in place to avoid or mitigate the risks including the protection of intellectual capital.

The Board may establish standing committees and working parties to support it in its governance work, provided they do not conflict with the Chief Executive's delegated responsibilities.

The majority of Board business will be conducted in Board meetings.

The Chairperson provides leadership to the Board, consistent with its policies and represents the Board and the organisation to outside parties. It is expected that the Chairperson will promote a culture of stewardship, collaboration and co-operation, modelling and promulgating behaviours that define sound Board membership.

The Board delegates to the Chief Executive responsibility for implementation of its strategic direction/strategic plan while complying with the Chief Executive delegation policies.

Responsibility to Shareholders

10. Responsibility to Shareholder

10.1 Statement of Intent

In accordance with the Local Government Act 2002, the company submits its Statement of Intent (SOI) for the coming financial year to the Shareholder – Rotorua Lakes Council. Within this constraint, information is communicated to the Shareholder through the following:

- Quarterly reporting against SOI's performance measures and financial forecasts.
- Delivery of an annual report by 30 September to RLC's Chief Financial Officer.
- RotoruaNZ Chair and Chief Executive to meet with the Mayor and Council Chief Executive a minimum of twice per year.
- In addition, RotoruaNZ will proactively develop positive relationships with other local key stakeholders (namely Rotorua Airport Limited) to ensure effective communication of the initiatives being pursued through the implementation of the respective strategic plans.
